

Up in Smoke: What Parents Should Know About Youth Vaping

Thursday March 21, 6:30pm
Washburn High School- Choir Room

Does it feel like the young people in your life know more about vaping than you do?

Join us for a presentation on the latest public health and medical information on vaping. We'll discuss:

- E-cigarette trends among adolescents
- JUUL's impact on youth vaping
- Health effects of vaping
- Strategies to reduce access to e-cigarettes
- Tools for talking with young people about vaping and helping them with nicotine addiction

Presenter: Annie Krapek, Program Manager, Twin Cities Medical Society
